EDUCATION

Cornell University, College of Engineering, Ithaca, NY
Master of Engineering in Computer Science *Jan 2020-May 2020*
Concentration: Natural Language Processing

Cornell University, College of Arts and Sciences, Ithaca, NY
Bachelor of Arts in Information Science • Bachelor of Arts in English *June 2016-Dec 2019*
Minors: Computer Science and Education

TECHNICAL SKILLS

Python • Java • C++ • C# • C • MATLAB • HTML • CSS • JavaScript • React • Flask • PHP • OCaml • Lua

WORK EXPERIENCE

Teaching Assistant for Introductory Design and Programming for the Web *Aug 2017-Dec 2019*
Cornell University

- Taught students UX design principles and how to write thorough but concise design journeys.
- Led a lab section; guided students through the lab and demonstrated new concepts to the class.
- Held office hours for students who had additional questions or required help on assignments.
- Graded students' assignments and provided feedback for further improvement.

Web Development Intern *June 2019-Aug 2019*
Canon U.S.A., Inc.

- Developed a content submission form with client-side validation for Canon's Extranet site.
- Worked closely with a UX/UI intern to design and test the content submission form.
- Used VBScript to format and send the data from a submitted form to an email.
- Aided in migrating content to a new portal for Canon's dealers via IBM Web Content Manager.

PROJECTS

Zenithia Castle (Independent Project) *Feb 2018-Present*

- Design and develop the game *Zenithia Castle* through the programming software Pico-8 and language Lua.
- Write and map the story and gameplay; design unique characters, maps and sprites.
- Conduct alpha testing to collect players' feedback and find and fix bugs.

Politeness Feedback Application *Feb 2020-May 2020*
Communication and Collaborative Technologies Lab

- Assisted in developing a message analysis application using Flask that helps users recognize messages that may potentially cause misunderstandings before they send them.
- Created a prototype with sentiment and politeness classifiers and integrated a grammar checker into the application that analyzes users' messages and generates feedback based on the analysis.
- Built an accessible and intuitive user interface so that users can aptly edit their messages based on the feedback.

TellMeWhat2Do *April 2020-May 2020*
Cornell University

- Helped develop an activity recommender using Flask that suggests movies, podcasts, and songs based on the user's interests and personality.
- Designed and implemented the entirety of the application's user interface; updated design based on feedback from iterative testing.

AWARDS & ACHIEVEMENTS

Ada Howe Kent Foundation Scholarship Recipient *Fall 2017-2019*
Published novel via Amazon Kindle Direct Publishing *Summer 2015*

OTHER SKILLS & ACTIVITIES

Languages: Fluent in Mandarin • Proficient in Japanese.
Secretary and Webmaster of Von Cramm Cooperative (Aug 2019-March 2020).
Vice President and Event Coordinator of Cornell Piano Society (Sept 2017-May 2020).
